

JOIN THE MYSCHOOLPULSE ANNUAL 5K WALK OR RUN SUNDAY, AUG 4TH, FAQRA CLUB

**TO BRING SCHOOL
TO HOSPITALS**

Myschoolpulse, a non-profit organisation whose mission is to bring school to hospitals in Lebanon, was created in memory of Paul Yared, deceased at the age of 12 from a bone cancer. The organisation was founded in June 2010 by his mother Mireille Nassif and his cousin Danièle Diab who realized how important it was for Paul to maintain a life as normal as possible, and thus to continue schooling.

Today, the organisation's mission is to school 5 to 18 year old children, stricken with cancer or any severe illness. The objective is to enable them to continue their education during their long treatment away from school and friends.

Myschoolpulse is present in four major hospitals across the country. To date, the organisation has provided around 5,000 hours of tutorship and supported more than 160 sick children. Classes take place in hospitals and are led by experienced teachers selected by Mrs. Raymonde Abou, a highly recognized professional in the field of education. Myschoolpulse also provides computer training for all sick children, with a focus on those who might develop a physical handicap for life resulting from their illness.

Myschoolpulse's work has had significant impact on children's academic performance and ability to keep up with school. More importantly, the support provided is helping children's morale and giving them the confidence they need when they resume school at the end of treatment.

Myschoolpulse finances itself through various channels. The "5K Walk or Run" which takes place yearly on the first Sunday of August, is a key fundraising event for the charity that is organised with the logistical support of Beirut Marathon Association and Faqra Club.

The fourth edition of this sporting event is taking place on Sunday August 4th, in Faqra Club. For more details on the race, please visit www.myschoolpulse.com.
